REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 11-28, 33-37, 39-41 and 43-50 are allowed.

Claim 11 and its dependent claims are allowed because the prior art of record fails to disclose or suggest the inclusion of first and second signal generation circuits which are configured to generate first and second intermediate signals having different frequencies when these circuits receive signals having the same frequency and output signals having the same frequency as recited in claim 11. The inclusion of this limitation defines patentability over the prior art of record because this feature reduces interference, a desirable feature, which is not taught or suggested in the prior art of record, alone or in combination.

Claim 33 and its dependent claims are allowed for the same reason noted in claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
